ONLINE BLEND TOOL

The CHIPS Blend Design Tool makes designing customized seamless flooring an elegant and efficient process. This intuitive online tool enables you to customize CHIPS colors, sizes, and blends and visualize them in realistic settings. (www.chipsunlimited.com)

IPAD BLEND TOOL

Use the iPad display as a design palette to support real-time development of custom chip blends—at your desk or in the field. With the CHIPS Blend Design Tool App, designing customized seamless flooring becomes a more elegant and efficient process. This intuitive app enables you to customize CHIPS colors, sizes, and blends; visualize them in interactive environmental simulations; share them with others; and order samples.
